Priya Nair

Data Analyst · SQL, Python & BI

priya.nair@example.com | (312) 555-0149 | Chicago, IL | linkedin.com/in/priyanair-example | github.com/priyanair-example

SUMMARY

Entry-level data analyst with a year of internship work in SQL, Python, and Tableau for retail and logistics teams. Built dashboards used by 60+ managers and found a stockout pattern that cut lost sales by $180k a quarter.

EXPERIENCE

Northgate Retail Group Jan 2025 - Aug 2025

Data Analyst Intern *Chicago, IL*

- Analyzed 2 years of point-of-sale data in SQL and Python, finding a weekend stockout pattern that cut lost sales by $180k a quarter
- Built 4 Tableau dashboards used by 60+ managers across 35 stores and the Merchandising team
- Automated a weekly sales report in Python and dbt, cutting preparation time from 6 hours to 20 minutes
- Supported a pricing A/B test across 12 stores by defining the success metric and checking sample sizes

Prairie Freight Co. Jun 2024 - Aug 2024

Operations Analytics Intern *Chicago, IL*

- Cleaned and joined 3 years of shipment records in Excel and SQL, reducing duplicate records from 9% to under 1%
- Analyzed late deliveries by route and presented findings that led dispatchers to reorder 14 routes

PROJECTS

Chicago rideshare demand model

- Built a Python model on 2M public trip records predicting hourly demand by neighborhood within 11% error

EDUCATION

University of Illinois Urbana-Champaign Aug 2021 - May 2025

B.S. Statistics, Minor in Computer Science · GPA 3.7/4.0 · Relevant Coursework: Statistical Learning, Databases, Experimental Design, Data Visualization *Champaign, IL*

SKILLS
